

For our Test Systems & Engineering department, we are currently seeking a:

Application Engineer virtual test driving

Location: Karlsruhe

We offer:

- A permanent position with a positive working climate
- An innovative and varied work environment and the chance to be part of a motivated team of experienced engineers
- Involvement in the newest developments of renowned automotive manufacturers
- Further develop your skills with exciting projects in vehicle validation and on-the-job training in projects for international customers

Your responsibilities:

- Assisting customer projects both nationally and internationally
- Using our tools and adjusting them to meet project requirements
- Preparing and performing tests on test tracks and in modern test benches
- Independently evaluating and analyzing data
- Providing information and support to customers

Your profile:

- University or college degree in mechanical engineering with a focus on automotive engineering, mechatronics or electrical engineering
- Professional experience is not necessary
- Enthusiasm for cars and innovative technology
- Programming knowledge is a plus
- Good command of English and a willingness to travel

WHO WE ARE

We are expert in the application areas of **ADAS & Automated Driving, Powertrain** and **Vehicle Dynamics** in the field of virtual test driving. As a global leader in virtual test driving technology, we develop innovative simulation solutions for vehicle development.

Designed for seamless use, our **software** and **hardware products** can be applied throughout the entire development process, from proof-of-concept to validation and release. Our virtual prototyping technology facilitates the **automotive systems engineering** approach, allowing our users to develop and test new systems in a virtual whole vehicle.

At IPG Automotive, we practice a **collegial spirit** and **teamwork**. We stand for **quality, holistic user orientation, efficiency, promotion of innovation** und **lasting partnership**. As a growing medium-sized, owner-managed business, we highly value the ideas and the commitment of our employees, for which we ensure the optimal conditions, always keeping a common goal in sight.

We are looking forward to your detailed application documents. Find further information and instructions on the application process at:
